💻 Web3 Developer & Designer | 🌐 Whachemo University

Objective

To solve real-life problems through innovative programming and creative design, using technology to build practical and impactful digital solutions.

Education

Whachemo University — Undergraduate in Computer Science (2022/2023 – Present)

- Focus on software development, blockchain, and creative digital design.
- Engaged in coding projects emphasizing problem-solving and innovation.

Work Experience

Entry-Level / Beginner Developer & Designer

- Gaining hands-on experience in front-end and Web3 development.
- Practicing UI/UX design to create intuitive and appealing user interfaces.
- Exploring blockchain integration and decentralized applications (DApps).
- Committed to continuous learning and improvement.

Skills

- Web3 Development
- UI/UX Design
- HTML, CSS, JavaScript (beginner level)
- Smart Contract Fundamentals
- Creative Problem Solving
- Continuous Learning

Projects & Interests

- Developing small web-based applications to strengthen coding skills.
- Experimenting with blockchain tools and decentralized technologies.
- Designing creative digital interfaces and prototypes.

Personal Qualities

Innovative | Curious | Self-Motivated | Team-Oriented | Design-Minded
